Cautionary Statements

The information in this news release includes certain information and statements about management's view of future events, expectations, plans and prospects, including closing of the Offering and the use of proceeds therefrom, and receipt of necessary regulatory and other approvals that constitute forward looking statements. These statements are based upon assumptions that are subject to significant risks and uncertainties. These risks include, but are not limited to a reduction in drilling activity in the United States and/or Canada. Because of these risks and uncertainties and as a result of a variety of factors, the actual results, expectations, achievements or performance may differ materially from those anticipated and indicated by these forward looking statements. Although RMS Systems Inc. believes that the expectations reflected in forward-looking statements are reasonable, it can give no assurances that the expectations of any forward-looking statements will prove to be correct. The nature of the agreements that RMS maintains with its industry partners provides that these agreements are, for the most part, terminable without notice and without penalty. In addition, these agreements provide that revenue is earned only while the drilling rig is in operation. As a result, RMS’s revenues are impacted significantly by a reduction in drilling activity by its customers and the RMS expectations may be impacted significantly in the event a customer changes its drilling plans or otherwise terminates its relationship with RMS. RMS revenues are also significantly impacted by weather which on

occasion limits drilling activities. RMS Systems Inc. disclaims any intention and assumes no obligation to update or revise any forward looking statements to reflect actual results, whether as a result of new information, future events, changes in assumptions, changes in factors affecting such forward looking statements or otherwise, except as required pursuant to applicable securities laws.
